

# Narvela Powder - Viburnum Foetidum

*Viburnum foetidum* · *Viburnaceae*

Herbal powder

## 1. Product identification

|                         |                                                                                            |
|-------------------------|--------------------------------------------------------------------------------------------|
| Product name            | Narvela Powder - Viburnum Foetidum                                                         |
| Botanical name          | <i>Viburnum foetidum</i> (syn. <i>Viburnum premnaceum</i> , <i>Viburnum rectangulare</i> ) |
| Plant family            | Viburnaceae                                                                                |
| Common names            | Narvela                                                                                    |
| Plant part used         | Bark, Shrub, Stem                                                                          |
| Product form            | Herbal powder                                                                              |
| Country of origin       | India                                                                                      |
| Product code (SKU base) | 55429-PDR-VIF0E                                                                            |

## 2. Composition and identifiers

| INCI / COMPONENT          | FUNCTION             | CAS | EC | PROPORTION |
|---------------------------|----------------------|-----|----|------------|
| — (no INCI name assigned) | Botanical ingredient | —   | —  | —          |

INCI status: Not applicable (no cosmetic INCI listed)

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

## 3. Manufacturing

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
| Process   | Dried and milled                                                         |
| Additives | No added colours, fragrance or preservatives unless stated on the label. |

## 4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Solid (powder)                                                            |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

|              |                                 |
|--------------|---------------------------------|
| Applications | Culinary, Supplements           |
| Markets      | Food & beverage, Nutraceuticals |

|                            |                                                                                                                                     |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suggested use level</b> | Use according to the formulation; typical inclusion in cosmetics 1–10 %, in food and supplements as permitted by local regulations. |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------|

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

|                   |                                                                                                                                                                                 |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Pack sizes</b> | 225 g, 1 Kg, 5 Kg, 25 Kg — bulk and custom quantities on request                                                                                                                |
| <b>Storage</b>    | Store in tightly closed original containers in a cool (below 25 °C), dry, well-ventilated place, away from direct sunlight, moisture, strong odours and incompatible materials. |
| <b>Shelf life</b> | 24 months from the date of manufacture in unopened original packaging stored as recommended.                                                                                    |

## 7. Documentation and quality

|                                |                                                                                 |
|--------------------------------|---------------------------------------------------------------------------------|
| <b>Safety Data Sheet</b>       | SDS-55429-PDR-VIFOE — available for download on the product page                |
| <b>Certificate of Analysis</b> | Batch-specific COA available on request                                         |
| <b>Other documents</b>         | Allergen, IFRA, origin and other statements on request, subject to availability |
